One wobbly tooth

I had a loose tooth. It was a bit wobbly. I didn't like having a loose tooth in my mouth. It was a funny feeling. I showed it to my mother. She said my wobbly tooth would fall out soon! I didn't think I would like that either.

My mother explained to me that my baby teeth were falling out and that I would soon have new teeth. They will be my grown up teeth. That sounded OK.

One day, I was munching on some sugar cane. That's when my wobbly tooth fell off. I spat out my sugar cane and my loose tooth came with it. That was a bit of a shock! Now I have a gap in my teeth and that feels funny too. Mummy says I just have to wait for my new tooth to grow.

I can do that. I'm good at waiting.
